Clinical Privileges Profile Endocrinology

Kettering Medical Center System

Kettering Medical Center Sycamore Medical Center

Applicant: Check off the “Requested” box for each privilege requested. Applicants have the burden of producing information deemed adequate by the Hospital for a proper evaluation of current competence, current clinical activity, and other qualifications and for resolving any doubts related to qualifications for requested privileges.

Clinical Service Chief: Check the appropriate box for recommendation on the last page of this form. If recommended with conditions or not recommended, provide condition or explanation on the last page of this form.

Other Requirements

- Note that privileges granted may only be exercised at the site(s) and setting(s) that have the appropriate equipment, license, beds, staff, and other support required to provide the services defined in this document. Site-specific services may be defined in hospital or department policy.
- This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

QUALIFICATIONS FOR ENDOCRINOLOGY

To be eligible to apply for core privileges in endocrinology, the initial applicant must meet the following criteria:

Successful completion of an Accreditation Council for Graduate Medical Education (ACGME)– or American Osteopathic Association (AOA)–accredited residency in internal medicine followed by successful completion of a fellowship in endocrinology.

AND

Current subspecialty certification or active participation in the examination process with achievement of certification within six years leading to subspecialty certification in endocrinology, diabetes and metabolism by the American Board of Internal Medicine or achievement of a certificate of special qualifications in endocrinology by the American Osteopathic Board of Internal Medicine.

Required previous experience: Applicants for initial appointment must be able to demonstrate provision of inpatient or consultative services, reflective of the scope of privileges requested, for at least 24 patients during the past 12 months or demonstrate successful completion of an ACGME- or AOA-accredited residency, clinical fellowship, or research in a clinical setting within the past 12 months.

Reappointment requirements: To be eligible to renew core privileges in endocrinology, the applicant must meet the following maintenance of privilege criteria:

Current demonstrated competence and an adequate volume of experience with acceptable results, reflective of the scope of privileges requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges.

CORE PRIVILEGES

ENDOCRINOLOGY CORE PRIVILEGES

- Requested** Admit, evaluate, diagnose, treat, and provide consultation to patients of all ages with injuries or disorders of the internal (endocrine) glands (e.g., thyroid and adrenal glands) and metabolic and nutritional disorders, diabetes in pregnancy or gestational disorders, obesity, pituitary diseases, and menstrual and sexual problems. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

- Requested**

CORE PROCEDURE LIST

This list is a sampling of procedures included in the core. This is not intended to be an all-encompassing list but rather reflective of the categories/types of procedures included in the core.

To the applicant: If you wish to exclude any procedures, please strike through those procedures that you do not wish to request, initial, and date.

1. Basic laboratory techniques including interpretation
2. Interpretation of hormone assays
3. Perform and interpret stimulation and suppression tests
4. Perform fine needle aspiration of the thyroid
5. Perform history and physical exam
6. Radiologic measurement of bone density and other tests used in the management of osteoporosis and other metabolic bone diseases
7. Radiologic, and other imaging studies for diagnosis and treatment of endocrine and metabolic diseases
8. Radionuclide localization of endocrine tissue
9. Ultrasonography of the soft tissues of the neck

ACKNOWLEDGEMENT OF PRACTITIONER

I have requested only those privileges for which by education, training, current experience, and demonstrated performance I am qualified to perform and that I wish to exercise at Hospital, and I understand that:

- a. In exercising any clinical privileges granted, I am constrained by Hospital and Medical Staff policies and rules applicable generally and any applicable to the particular situation.
- b. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the Medical Staff Bylaws or related documents.
